General Information

Description

Calligraphy is the quintessence of Chinese culture. When the ancient Orientals carved the earliest abstract symbols on the walls of their cave houses, and on animal bones and tortoise shells, their symbolic action marked the beginning of the Chinese written language and civilization. In this course, we will know the history of Chinese calligraphy and observe some excellent calligraphy works. At meantime, we will learn how to produce Chinese characters by using writing brush, ink and rice paper. Clerical script is easier for student who doesn't have any base to learn, so in this class, you will have access to learn all strokes of clerical script and finish your own calligraphy works.
